Sri M. T. RAJU BAR-AT-LAW, I.C.S.,
Director of Industries and
Commerce, Madras.6.

To:
The Secretary to Government,
Development Department,
Madras.9.

2137/DI/51 dated 23rd May, 1951.

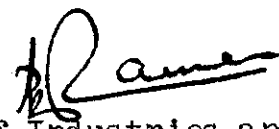

Sub: Industries- Sericulture- Government Silk Filatures-
Kollegal- Stocking of petrol - Construction of a
petrol storage shed - Sanction of Expenditure-
Proposals.

178-26
below

The Sericultural Expert, Government Silk Filatures, Kollegal has reported that the Inspector of Explosives, Madras has objected to the stocking of more than 20 gallons of petrol in the general stores of the Government silk Filatures, Kollegal and that he has urged the provision of a separate petrol storage shed. The Sericultural Expert, has explained that such stocking of petrol has been found necessary as the local petrol bunk ~~often~~ goes without any stock of petrol and has accordingly proposed to construct a petrol shed within the premises of the Government Silk Filatures, Kollegal as required by the Inspector of Explosives. He has submitted the plans and estimates prepared by the Executive Engineer, Mettur Dam (enclosed herewith) according to which the expenditure involved works out to Rs. 1,800/-.

2 I agree with the Sericultural Expert's proposal and accordingly request that Government may be pleased to sanction an expenditure not exceeding Rs. 1,800/- for construction of a petrol storage shed within the premises of the Filature.

3 The Expenditure may be debited to #43.A-Capital outlay on Industrial Development - Government Silk Filatures, Kollegal".

From the Dite No. 2137 DI/ST d. 6.8.57]

Please see the letter from the Dite at.
The Dite ^{who} was asked to justify further, the need for
a separate ^{petrol} storage shed has pointed out that the
local petrol bunk at Kollegal ^{which has no storage tank} often runs short of
supplies. He has pointed out that the average consumption
of petrol of the motor vehicles at the G.S.F. is about
22 gallons per day and that therefore it is necessary
to stock about 100 gallons of petrol at the G.S.F.
Since the Inspector of Explosives has objected to
the storage of more than 20 gallons, the Dite
considers that ~~idea~~ the construction of a petrol bin
at the G.S.F. is essential.
P.W. ^{for} may see again for remarks.

Dev (MI) Dept

The proposal in this file is regarding the construction of a petrol storage shed within the premises of the Govt. Silk Filatures, Kollegal, at a cost of Rs 1,800/-. The Director of Industries and Commerce has pointed out that a separate petrol shed is essential in G.S.F. for the following reasons: (1) that the local petrol bunk often runs short of supplies and (2) that the Inspector of Explosives has objected to the stocking of more than 20 gallons of petrol in the G.S.F., Kollegal without a licence and a petrol shed. Finance have agreed to the proposal and suggested that the case should be circulated to HM (Fin). The file may now be circulated to HM (Ind) & HM (Fin) for orders whether the proposal to construct a petrol shed at the G.S.F., Kollegal at a cost of Rs 1,800/- may be accepted.

M a d r a s.9.

(No.2137/D1/51 dated 6th August, 51.)

Sir,

Sub: Industries- Sericulture- Government silk filatures-
Kollegal stocking of petrol - construction of a petrol
shed.

5 above

Ref: Government Memorandum No.58784-M/51-2 dated 26/6/51.

The Sericultural Expert, has reported that in spite of advance intimation being given ~~to~~ to the local petrol bunk, of his requirements of petrol, it often happens that the bunk runs short of supplies. The petrol bunk has no storage tank but stocks petrol in 2 gallon tins obtained from Bangalore. The present average consumption of petrol of the motor vehicles at the Government silk filatures is about 22 gallons per day and it has therefore become necessary to stock about 100 gallons of petrol at the Government silk filatures, Kollegal. The Inspector of Explosives, Madras, has however objected to the stocking of more than 20 gallons of petrol at the Government silk filatures, Kollegal without license and necessary petrol shed. It has there-

/p.t.o/

12/-
-/2/-

fore become essential to construct a petrol^{bin} at the filatures.
I therefore request that Government may be pleased to sanction
an expenditure of Rs. 1,800/- as per estimate enclosed with
my letter dated 23--5--1951.
